PRESIDENT'S MESSAGE

This will probably be my last message. It has been a pleasure and a privilege to serve this fine organization. My greatest regret is that I did not have the opportunity to visit all the member clubs.

Having recently returned from the 99th ANA Convention in Seattle, I can report that the hot topic in Numismatics these days is "REGULATION." Not when it is coming, but how. It may be in the form of self regulation, governmental or a combination of the two similar to the securities industry, but it is coming. We must find a way to establish ethics and standards, to enforce good business practices, and protect the collector or investor. If computer grading achieves grade consistency and slabs continue to dominate the market, government regulation is inevitable.

Again this year, I am disappointed by the lack of nominations for our prestigious awards. Please respond with your ideas for Numismatist of the Year, both junior and adult. Support our convention and show; come to Charlotte November 23rd to 25th.

D. Clark White
President

The N. C. N. A. JOURNAL is the official publication of the North Carolina Numismatic Association, an educational, non-profit organization dedicated to the advancement of the hobby of numismatics. It is published four times yearly in Raleigh, North Carolina.

CANDIDATES FOR NCNA OFFICES

SIGN UP A NEW MEMBER TODAY

Use the attached membership application to do your part to help the North Carolina Numismatic Association by signing up a new member today. At A Board of Directors meeting, the Board created a new membership classification: Joint Membership. This allows two members of the same household, either husband and wife or parent and child, to both be full members of NCNA at a reduced rate. Both would have full voting privileges, but only one copy of the NCNA JOURNAL will be mailed to the Joint Members.

STANDARD CATALOG OF U. S. PAPER MONEY

9th Edition, Krause Publications
a review by Jasper Payne, PCDA

As a serious collector of currency and related books for research, I'm fully convinced that the 9th edition of the Standard Catalog of U. S. Paper Money is second to none.

This is a superbly researched, scholarly work that fills a vacuum that has been too long evident. This edition exemplifies the unique ability of the authors to combine data and analyses in an easy to understand style, scope and graphic detail. The scope transmits a comprehensive vision of all U. S. fiscal paper from 1812 to our present fiduciary greenbacks. The years in between are well constructed editorially with balance to enliven and inform the reader with a perceptive sense of the evolution of our currency. The graphic detail inspires one to fully appreciate the enormous undertaking to produce such an all-embracing reference.

The ever-growing popular National Currency collector will appreciate the detailed accuracy, grading system, rarity scale and current market prices of this fascinating chapter. This valuable information may also be perused for pleasure and occasionally profit.

The MPC collector may recall some nostalgic purchases with this medium. This, our most colorful currency is accurately compiled, detailed and priced.

Early type notes, errors, Fractional Currency and encased postage stamps are equally well described and priced.

This superior reference is a testament to the combined vision of the authors. Moreover, it rescues the reader from dull graphs and charts with adequately balanced photographs and prices. The understanding of our currency and cannot expect a more complete currency library in one volume.

COLLECTING WORLD COINS

Third Edition, Colin Bruce, ed.
Krause Publications, 624 pp, 8 1/2 x 11 in, $19.95
a review by Halbert Carmichael

This catalog which uses the data of the 1991 STANDARD CATALOG OF WORLD COINS is better described by its subtitle: "A CENTURY OF MONETARY ISSUES." It catalogs coins of the world issued from the last natural break for each country before 1900. By leaving out precious metal commemorative coinage and 19th century issues the editor has reduced it to one-third as many pages as the "telephone book."

The book contains all the valuable explanatory material and tables of the larger book, and thicker paper allows more attractive pictures. The smaller size makes COLLECTING WORLD COINS easier to handle.

But, WHO WILL USE THIS BOOK? The STANDARD CATALOG remains indispensable for the dealer or serious collector. COLLECTING WORLD COINS is obviously aimed at the library or the casual collector who would like to identify an occasional foreign coin. Can they? It all depends on where the coin is found. If the coins has been in circulation in the 20th century, it is PROBABLY in this book. If the coin came from a dealer's show case, very likely not.

Distinguishing between monetary issues and "collector" issues is always difficult but has been done inconsistently and capriciously in this book. Precious metal commemoratives of long standing are omitted, copper-nickel commemoratives of no more monetary significance are included. Whole sovereign countries are omitted while many Franklin Mint issues still clutter the pages. An indication of the results are shown by the number of columns in COLLECTING WORLD COINS vs the number in the STANDARD CATALOG: Australia 20 *vs* 38, Ireland 7 *vs* 7, Isle of Man 0 *vs* 59, Lithuania 0 *vs* 3.That's right, the Isle of Man and Lithuania, both of which have had circulating coinages in the 20th Century are completely absent.

This book is a poor attempt to produce something that is badly needed: By deleting year listing and repetitious photos but keeping all types Krause could produce something very useful from their data base: an updated version of Yeoman's COINS OF THE WORLD.

COIN SHOW CALENDAR

LOCAL CHAIRMEN PLEASE NOTIFY THE EDITOR, Box 5625, Raleigh, NC 27650 of your plans as soon as possible to avoid conflicts. Everyday more and more serious collectors are demanding certified coins to protect their investment. The **Professional Coin Grading Service** has set the grading standard for the entire rare coin industry. With the high cost of quality collector coins, why take a chance on over-graded, uncertified coins? With PCGS, grading is guaranteed.

As an authorized PCGS Dealer, *John Wills Rare Coins* can help you build a nice collection of certified coins. We carry a good selection of PCGS collector coins in grades AU-50 and better.

PCGS SUBMISSIONS — If you have coins you would like to have certified, send $1.00 for a submission kit (credit given on your order) or call for details.
